APEX HEALTH DIAGNOSTICS & CLINICAL LABORATORY

100 Innovation Parkway, Suite 400 | Accreditation ID: LAB-99281-DEMO

Patient Name: Jane Synthetic Doe	**Patient ID:** PT-2026-8819	**Date of Collection:** 2026-09-20
Age / Gender: 34 Y / Female	**Referring Doctor:** Dr. Robert Vance, MD	**Report Date:** 2026-09-21
Specimen Type: Whole Blood (EDTA)	**Department:** Hematology	**Status:** Completed / Verified

COMPLETE BLOOD COUNT (CBC) WITH DIFFERENTIAL

Test Investigation	Observed Value	Unit	Reference Interval	Flag / Status
Hemoglobin (Hb)	**10.8**	g/dL	12.0 - 16.0	**LOW**
White Blood Cell Count (WBC)	7,200	/µL	4,000 - 11,000	NORMAL
Platelet Count	245,000	/µL	150,000 - 450,000	NORMAL
Red Blood Cell (RBC) Count	4.1	million/µL	3.8 - 5.2	NORMAL
Hematocrit (PCV)	**33.5**	%	36.0 - 46.0	**LOW**
Mean Corpuscular Volume (MCV)	81.7	fL	80.0 - 100.0	NORMAL
Mean Corpuscular Hemoglobin (MCH)	26.3	pg	27.0 - 33.0	BORDERLINE LOW
Neutrophils	62	%	40 - 75	NORMAL
Lymphocytes	29	%	20 - 45	NORMAL

LABORATORY COMMENTS & CLINICAL OBSERVATIONS

Summary: Mild normocytic hypochromic anemia observed with reduced Hemoglobin (10.8 g/dL) and Hematocrit (33.5%). White blood cell count and platelet parameters are within normal biological limits. Recommend serum ferritin, iron profile, and clinical evaluation with the primary care physician.
